GROOMING ESSENTIALS

What every Cobberdog owner should have

Simple tools for a beautiful coat

01

Chris Christensen Big K

Our recommended long pin slicker brush for the adult coat. Essential for line brushing and keeping the coat in top condition. Cheaper to buy direct from Chris Christensen Australia.

02

Metal Comb

Your final check after brushing. If the comb catches, there is still a tangle hiding in the coat.

03

Curved Scissors

For trimming in front of the eyes and tidying paws and face. Keeps the eyes open and expression soft.

04

Nail Clippers or Grinder

Regular nail care is part of routine grooming. Keep nails short for comfort, grip and healthy foot placement.

05

Ear Cleaner

We use Epi-Otic when ears are dirty. Check ears regularly and keep the hair underneath the ear tidy for airflow.

06

Hydrating Shampoo + Conditioner

A clean, conditioned coat is easier to brush and less likely to mat. Hydration matters with a fleece coat.

07

Plush Puppy O.M.G. Grooming Spray

The grooming spray we use at Lovelocks. Lightly mist the coat before brushing to reduce drag and make line brushing easier.

Included with your puppy

Selected starter grooming products and bonus grooming tools.

*A great start
for a lifetime of
beautiful coats*

COMPLETE HOME GROOMING KIT

For owners who want to groom at home

The tools for clipping, shaping and finishing

01

Wahl Cordless Lithium ShowPro Pet Clipper

Best for everyday tidy-ups, puppy grooms, paw pads, around the eyes and sanitary areas. Ideal for detail work, but not for clipping the full body.

02

Heiniger Saphir Style Cordless Clipper

Our preferred clipper for body clipping. Powerful enough for the coat and used with attachment combs to maintain the Lovelocks teddy-bear style.

03

Attachment Combs

Used with the Heiniger Saphir clipper to control body length and keep the coat shorter without taking it too short.

04

Straight Scissors

Useful for tidying leg lines, shaping the outline and evening the coat where needed.

05

Curved Scissors

Perfect for shaping the face, opening the eyes and rounding the feet for a soft Cobberdog finish.

06

Thinning or Blending Shears

Used to soften lines and blend the body into the skirt or legs for a natural, balanced finish.

07

High Velocity Dryer

A high velocity dryer helps separate the coat after bathing and makes brushing and clipping much easier.

08

Grooming Table or Non-Slip Surface

A stable grooming surface makes home grooming safer, easier and more comfortable for both you and your dog.

A note on clippers

One clipper does not do every job. Use the Wahl Cordless Lithium ShowPro Pet Clipper for detail areas and puppy trims, and the Heiniger Saphir Style Cordless Clipper with attachment combs for the body.
